EDUCATION

University of Pennsylvania

Master of City Planning

May 2026

Philadelphia, PA

- Marketing Lead, Wharton-Weitzman Future of Cities Conference: Directed a four-person marketing team across multi-week deliverables, managing task planning, schedule coordination, and vendor and timeline logistics for the conference.

Simon Fraser University

Bachelor of Arts with distinction, Major in Political Science

May 2024

Burnaby, BC

WORK EXPERIENCE

Geospatial Researcher

Penn Institute of Urban Research

Jan 2026 – May 2026

Philadelphia, PA

- Scoped and built ArcGIS and Python analysis of Penn's cultural programming reach and equity. Integrating parcel, census, and administrative datasets into client-ready maps and briefings for leadership across varying levels of data fluency.
- Benchmarking cultural asset mapping methodologies from peer anchor institutions and municipal cultural plans to recommend an analytical framework tailored to Penn's institutional context.

Design Fellow

PennPraxis

May 2025 – Oct 2025

Philadelphia, PA

- Built and maintained scalable data pipelines in R to ingest, clean, and integrate microdata for 245,000+ individuals from US Census PUMS and Data Axle.
- Produced a client-ready benchmarking report for the Pennsylvania Council on the Arts, designed in InDesign for technical and general audiences, with documented assumptions and quality checks across multi-source microdata.

Knowledge Mobilization Lead

Department of Gerontology, Simon Fraser University

Jan 2024 – Dec 2024

Burnaby, BC

- Collected and processed spatial audit data across 20km+ of pedestrian infrastructure with the Inclusive Environments Lab, using the SWAN tool to identify accessibility gaps for age-friendly design recommendations.
- Analyzed older adults lived experiences of housing precarity for the Aging in the Right Place partnership, using photo-voice and NVivo to translate findings into recommendations on housing that supports aging in place.

Youth Facilitator

CityHive

Sept 2023 – June 2024

Vancouver, BC

- Led weekly civic-education workshops in high schools and community centers, facilitating small-group and panel discussions on urban planning, equity, and environmental issues for youth audiences.

Public Diplomacy Intern

United States Consulate Vancouver

May 2023 – Aug 2023

Vancouver, BC

- Represented the U.S. Consulate at Vancouver diaspora community events and produced a public-facing article published in Mandarin on Share America, supporting Mandarin-language civic engagement and outreach to Chinese-speaking communities.
- Engaged 50+ community leaders across sectors to strengthen cross-sector partnerships and drive urban revitalization efforts through the Chinatown Cultural Preservation and Revitalization Conference.

SELECT PROJECTS

PhillyStat360: Vacant Property Risk Model | *Practicum*

May 2026

- Built a parcel-level vacancy risk model across Philadelphia's 520,000+ residential parcels to help the city target structural inspections, pairing predictive scoring with an equity audit across poverty quintiles to check flag rates before deployment.

Pennsylvania Creative Workforce Analysis | *Publication*

Oct 2025

- Designed a reproducible R-based pipeline integrating multi-year PUMS and commercial microdata to enable cross-state benchmarking of creative sector employment trends; findings published by the Pennsylvania Council on the Arts as a statewide policy resource for workforce and economic development planning.

Philadelphia Computer-Assisted Mass Appraisal (CAMA) Model | *Course Project*

May 2026

- Co-built a cloud-native mass appraisal pipeline on Google Cloud Platform to predict parcel-level assessed values across Philadelphia's tax base, integrating OPA and PWD datasets into a public-facing assessment review dashboard.

SKILLS

Programming: Python, R, PostgreSQL | **ML/Stats:** scikit-learn, tidymodels, PyTorch | **Geospatial:** ArcGIS, QGIS, GeoPandas | **Other:** Excel, PowerPoint, InDesign, Claude (workflow automation), NVivo, Google Cloud | **Languages:** English, Mandarin
